## SUMMARY

A tech enthusiast with a strong foundation in software development, front-end design, currently advancing my expertise through an MCA program at Vivekanand Institute of Professional Studies, affiliated (GGSIPU), New Delhi. Driven by a passion for innovation, I aim to leverage my skills to create engaging and visually appealing user interfaces that solve real-world problems. Eager to contribute to impactful projects, enhance user experiences, and lead initiatives that push the boundaries of front-end development.

## EDUCATION

**Vivekananda Institute of Professional Studies-TC (GGSIPU) - Master's, Computer Application - GPA: 87    2023 - Present**  
**Sri Guru Tegh Bahadur Institute of Management and IT (GGSIPU) - Bachelor's, Computer Application - GPA: 86.5    2020 - 2023**

## SKILLS

**Programming** : C, Python, JavaScript  
**Web Development** : HTML, CSS, Bootstrap, ReactJS, Node.js  
**Database Management** : MySQL, MongoDB  
**Soft Skills** : Team management, collaboration, problem-solving

## PROJECTS

### ZoFit App (Ongoing Project): (Fitness and Food Recommendation App) | Developer ,

- Zofit is an AI-driven fitness and food recommendation platform that delivers personalized, sustainable, and hygienic food choices while promoting healthy living and local businesses. My role includes front-end design and backend integration using ReactJS, HTML, CSS, and Bootstrap, along with MongoDB for efficient data management and optimized user experience.

### Chatbot Development,

- Deliver and Deploy a fully functional Food ChatBot for the website using IBM Watsonx Assistance Tools, where a user can interact with the ChatBot for assistance to the website for various queries as well as help in going through the website.

### E-commerce Websites,

- Developed responsive e-commerce websites for clothing and electronics using HTML, CSS, and JavaScript. Integrated Node.js and MongoDB.

## INTERNSHIP

### Artificial Intelligence , IBM

Jun 2024 - Jul 2024

- Attended Artificial Intelligence & Machine Learning internship by IBM SkilledBuilds and completed the AI fundamentals with a certificate and created a Smart Infrastructure Optimization using IBM Cloud
- Constructed a **ChatBot** using IBM Tools like **IBM Cloud** which helps the user to navigate and solve any query where the user gets stuck

### Full Stack Developer Intern, Allsoft Solutions Pvt. Ltd.

Jun 2022 - Jul 2022

- Developed User Interfaces:** Designed and implemented interactive, user-friendly, and responsive interfaces for e-commerce websites using HTML, CSS, and JavaScript.
